Aspiring AWS DevOps Engineer with a B.Tech in Computer Science and professional software development experience. Currently building foundational knowledge in AWS services including EC2, VPC, IAM, and S3, along with Linux and Git. Interested in cloud infrastructure, automation, and CI/CD.

Technical Skills

- Frontend: HTML, CSS, Bootstrap, JavaScript, React.js, Angular15
- Backend: Node.js, Express.js, DotNet
- Database: MongoDB, SQL
- Version Control: Git, GitHub
- Tools: Swagger
- Programming Languages (Basics): C, C++, Java, C#
- Cloud: AWS (EC2, VPC, Snap Shots, Auto Scaling – Basics)
- Operating Systems: Linux (Basic Commands, File Management)

Education

- B.Tech in Computer Science | Marian Engineering College (2020 - 2024) | CGPA: 6.66
- AISSCE | Sarvodaya Central Vidyalaya (2019 - 2020) | Scored 75.6%
- AISSE | Sarvodaya Central Vidyalaya (2017 - 2018) | Scored 82%

Experience

Associate Software Engineer Intern | PPLIO Technologies (Sep 2025 - March 2026)

- Collaborating with senior engineers to debug, optimize, and enhance application performance
- Participating in code reviews and following industry best practices
- Gaining hands-on experience with real-world software development workflows

Associate Software Engineer | PPLIO Technologies (March 2026 - May 2026)

- Optimizing application performance and resolving production issues
- Contributing to code reviews, technical discussions, and software design decisions
- Developing and maintaining frontend components and integrating RESTful APIs

Projects

QuickCarz

- Built a full-stack car rental platform where users can search and book available cars by location and date.
- Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS
- Key features include:
 - User login/signup with token-based auth
 - Car listing and booking with real-time availability check
 - Owner dashboard to manage cars and view bookings

Certifications

- AWS DevOps Training — Currently pursuing
Topics: EC2, VPC, IAM, S3, Linux, Git, and DevOps fundamentals
